**Handbook to Practical Disaster Preparedness for the Family, 3rd Edition** By Dr. Arthur T Bradley

How do you prepare for an Ebola outbreak? What about a hurricane, flood, tornado, or house fire? It all starts with developing a practical disaster preparedness plan for your family. The Handbook to Practical Disaster Preparedness is the only book that provides step-by-step instructions for developing that plan. It emphasizes practical preparations and avoids the scare tactics of many other books.

The 440-page handbook is a complete guide to creating a practical disaster preparedness plan. The 3rd Edition has been expanded to cover every important topic, including food storage, water purification, home improvements, electricity generation, backup heating, personal protection, financial preparations, communication systems, disaster preparedness networks, evacuations, life-saving first aid, and much more. An entire chapter is also provided for people with special needs, including the elderly, those with young children, people with disabilities, and pet owners.

Inside the handbook are hundreds of photographs, tables, and useful tips. The new larger 8" x 10" format also includes easy-to-copy worksheets to help organize your family's preparedness plans. Working through the steps identified in this book will prepare your family for nearly any disaster, whether it be natural disasters making the news daily (e.g., earthquakes, tornadoes, hurricanes, floods, and tsunamis), or high-impact global events, such as electromagnetic pulse attacks, radiological emergencies, solar storms, or our country's impending financial collapse.

Discover why this handbook is being praised by emergency management experts, preppers, church groups, survivalists, bloggers, soccer moms, and people from every walk of life. Now is the time to take responsibility for your family's safety by putting into place important emergency preparations.

### Editorial Review

#### Review

"A great introduction to disaster preparedness in a single volume, both scholarly and easy to read! Provides practical information for families seeking to organize their preparedness efforts." --*James Talmage Stevens, Making the Best of Basics*

"An easy to read handbook packed full of very helpful information to cover any emergency one might encounter."--*Marg Pollon, Founding Director of Bridges of Love Ministry Society*

"Whether you're a novice just starting out, a seasoned "prepper" or a die-hard survivalist, this is one book that you should add to your must read list." --*Keith Erwood, disasterpreparednessblog.com*

"This book offers a comprehensive run-down of household preparedness activities that is easy to follow and implement." --*Jeff Bowers, Confluence Disaster Preparedness Consulting*

"What I appreciated most from this book is Bradley's focus on being prepared so that we can help those around us, and the unintimidating, conversational style in which he presents the information." --*Cindy Baum, Books and Chocolate*

#### From the Author

Right out of the gate let me tell you what the book is NOT. It is not a book about fighting off hordes of flesh-eating zombies, should they ever rise from the grave. Nor will it describe how to survive a shipwreck by feasting on coconuts and roasted iguana. Finally, it is not intended to help you survive our planet being sucked into the cosmic fireball affectionately known as our Sun. If you wish to prepare for those types of events, I respectfully suggest that you continue your search for a more suitable text.

This book is designed to help your family prepare for more commonplace, yet still potentially deadly - disasters. The list is long and varied, and includes hurricanes, tornados, terrorist attacks, earthquakes, pandemics, financial collapse, widespread blackouts, and much more. My hope is that this handbook will accomplish three things: (1) motivate you to become better prepared, (2) illustrate how to prepare effectively, and (3) help you to realize your place in a larger movement.

The handbook is clear and easy to read with more than a hundred photos, illustrations, and worksheets. What makes this book different is that it focuses on *practical* steps that you and your family can take to become better prepared. At the beginning of each chapter, is an example scenario designed to help you consider your current level of readiness. At the end, are brief lists of recommended supplies.

This handbook will help you to lay out a plan that includes assessing your family's needs, stocking supplies, shoring up your shelter, leveraging existing resources, mitigating potential hazards, and preparing for likely threats. At the end of your efforts, you will be rewarded with knowing that your family is far better prepared to handle real world challenges.

About the Author

Dr. Arthur Bradley holds a doctorate in engineering from Auburn University and currently works for NASA. Having lived all across the United States, he writes from personal experience about preparing for a wide variety of disasters, including earthquakes, tornadoes, hurricanes, floods, house fires, massive snowstorms, electromagnetic pulse attacks, and solar storms. He has been featured in the New York Times, Money magazine, the Toronto Sun, and numerous radio shows. Dr Bradley subscribes to the philosophy that preparedness should always be motivated by love and concern, never by fear and paranoia. His practical approach to family preparedness has received widespread praise from individuals, emergency preparedness groups, and religious organizations. He is the author of several highly acclaimed books on disaster preparedness, including the "Handbook to Practical Disaster Preparedness for the Family," "Disaster Preparedness for EMP Attacks and Solar Storms," and the "Prepper's Instruction Manual." He conducts free seminars around the world, teaching individuals and families how to establish effective disaster preparedness plans. His website, <http://disasterpreparer.com>, provides free information regarding practical disaster preparedness as well as discounts on his books.
