Editorial Review

Review

Mark E. Bouton, one of the most influential figures in modern learning research, has written a book that aims to convey to students the complex reality of his field. It is far more ambitious than the typical textbook because it tries not only to cover the basic facts found in all such works but also to show the reader the theoretical and methodological sophistication found in the contemporary world of learning theory. This book has to be considered a smashing success in both respects. --Robert L. Greene, *PsycCRITIQUES*

In *Learning and Behavior: A Contemporary Synthesis*, Mark Bouton has created a student-friendly textbook for an undergraduate course in animal learning that is both comprehensive and current. --Darlene Skinner, *Canadian Psychology/Psychologie canadienne*

In *Learning and Behavior: A Contemporary Synthesis*, Mark Bouton has created a student-friendly textbook for an undergraduate course in animal learning that is both comprehensive and current. --Darlene Skinner, *Canadian Psychology/Psychologie canadienne*

About the Author

Mark E. Bouton is the Robert B. Lawson Green & Gold Professor of Psychology at the University of Vermont. He is a leading researcher in the field of animal learning, cognition, and behavior. He received his B.A. from Williams College and his Ph.D. from the University of Washington. For many years, his research has investigated the relationships between context, conditioning, memory, and motivation, with a special emphasis on inhibitory processes like extinction. Some of his scientific writing has focused on the connections between modern learning theory, neuroscience, and issues in cognitive behavioral therapy (e.g., panic disorder, fear and anxiety, relapse after therapy). He has been a Fulbright Scholar, a James McKeen Cattell Scholar, a University Scholar at the University of Vermont, and a Fellow at the Center for Advanced Study in the Behavioral Sciences (Stanford), and he is a Fellow of the American Psychological Association, the Association for Psychological Science, and the Society of Experimental Psychologists. He was Editor of the *Journal of Experimental Psychology: Animal Behavior Processes*, the field's most prestigious journal, from 1998 until 2003. He has taught an up-to-date course in Learning, which is given away in his book, for over three decades.

Users Review

From reader reviews:

Whitney Obrien:

Have you spare time for the day? What do you do when you have a lot more or little spare time? Yeah, you can choose the suitable activity for spend your time. Any person spent their particular spare time to take a walk, shopping, or went to the Mall. How about open or read a book allowed *Learning and Behavior, Second Edition*? Maybe it is to get best activity for you. You know beside you can spend your time with the favorite's book, you can smarter than before.
