## Candles, Meditation and Healing By Charlene Whitaker

*Candles, Meditation, & Healing* by Charlene Whitaker is a delightful book that will allow you to use candles to give powerful readings and divinations as well as do magic. It's so easy to use it makes a perfect beginner's guide for yourself or a gift for someone you really care about.

The system Whitaker shares for giving readings is simple but very clever! It uses the candle as the center of an astrological chart. Where the wax falls, and the symbols that form in the drippings, allow you to do the interpretation. Everything you need to know about the meanings of the signs and houses, and an enormous symbol dictionary, is included, so you can get started after a few minutes of reading. Pretty good, huh?

Obviously, the more you know about astrology, the more in-depth your readings can be. So as a result of this book you may become interested in learning more about the meanings of the stars, planets, and constellations. But you can give powerful readings for yourself or to others with nothing other than this book, a candle, and your imagination. This book also includes how to meditate, so you can help build up your imaginative faculties. You'll also learn how to make your own altar for doing candle magic.

And this book covers many aspects of candle magic, too! You'll learn about times to do magic and the best days for it. You'll also learn how to use the color of the candles to enhance your rituals. Of course, the book also explains how to "dress" the candle by blessing it and anointing it with appropriate oils.

In short, this book is a complete grimoire! With it you'll be able to discover challenges and opportunities in all levels of your life: health, finances, romance, travel, spirituality, and more. Then you can use the magic you learn to overcome the challenges and take advantage of the opportunities.
