Secret Societies of America's Elite: From the Knights Templar to Skull and Bones By Steven Sora

An expose of the dark and critical role secret societies play within the ruling families in America and their influence on American democracy, current events, and world history.

- Reveals the enormous influence secret societies still have on contemporary American life.
- Shows how the secret Masonic cells that smuggled in the democratic ideals inspiring the American Revolution also enabled the future elite of the new society to build huge fortunes.

Elite and secret societies have always been a major force in the history of Western civilization. The alliances formed in secret societies such as the Knights Templar, the Knights of Christ, and the Freemasons transcended patriotism and religious beliefs and had a powerful influence on the establishment of the United States of America. While these secret associations of merchants, smugglers, occultists, gamblers, spies, and slavers succeeded in freeing the United States from foreign domination, the dark side is that the elite used their secret connections to further their own wealth and power. These secret cells did not hesitate to sponsor the assassination of a president and even attempted to break up the union on several occasions when it was deemed expedient.

From the Sons of Liberty and the Essex Junto to the Ku Klux Klan, secret societies have played critical roles in building the fortunes of America's elite. Now Steven Sora reveals in alarming detail how secretive societies continue to wield power even today as organizations such as Yale's Skull & Bones unite America's modern ruling families as strongly as Masonic Lodges once connected the Astors, Livingstons, and Roosevelts. Their immense power and wealth allow this elite to control America to an even greater degree than the Templars once dominated Europe.

Editorial Review

From Publishers Weekly

Despite the promise of its somewhat lurid title and cover, this odd combination of scholarship and speculation does not really have what it takes to capture the attention of a general reading audience. Its extremely broad theme is that "from the time of the Crusades to modern years, a handful of families have controlled the course of world events and have built their own status and wealth through collective efforts and intermarriage." Sora, who covered much of the same material in his earlier *The Lost Treasure of the Knights Templar*, connects the leaders of the 14th-century French military group the Knights Templar to 18th-century pirates such as Captain Kidd as well as Revolutionary heroes such as Benjamin Franklin. Sora provides some interesting insights into each subject: the business organization and acumen of the Knights Templar made them, in effect, "the first ever multinational corporation"; William Kidd was a businessman with ties to Scottish Masonic private clubs; and Franklin's efforts to keep the colonials supplied and funded meant that he "operated through Masonic groups in England and France, and his partners in the pro-American war efforts were more often than not hedonists, occultists, Rosicrucians, slave traders and spies." But his general attempt to connect Masonic groups to more current events like the J.F.K. assassination is on far shakier ground, and a final chapter on Yale's legendary Skull and Bones fraternity seems tacked on to book only to allow Sora to argue-but never prove-that "coincidences point to an elite handful of interlocking relationships that have a hold over national affairs."

Review

"His investigation makes for a ripping yarn that gives a context to modern-day piracy." (*Nexus, September-October 2003, Vol.10 No.5*)

"A provocative book detailing who among our Founding Fathers participated in such clandestine activities as piracy, drug running, smuggling, slave trading, and multinationalism, and those in our nation's highest office who have also practiced and benefited from these same illegal activities right up to the 21st century. . . . An intriguing view of some of the planet's puppeteers." (*Robert R. Hieronimus, Ph.D., author of America's Secret Destiny*)

"Exposes the dark and critical role secret societies play within the ruling families in America." (*AZ Net News, Aug/Sept 2004*)

"Steven Sora is an amazing researcher and a thought-provoking writer." (*Michael Peter Langevin, Magical Blend, August 2003*)

". . . this book deserves a place on the shelves of both new age libraries and collections serious about politics and American history." (*The Midwest Book Review, Mar 2008*)

". . . a simply fascinating, authoritative, strongly recommended study of a metaphysical aspect of human history not shown in most textbooks." (*The Midwest Book Review, May 2003*)

SECRET SOCIETIES / HISTORY

“A provocative book detailing who among our Founding Fathers participated in such clandestine activities as piracy, drug running, smuggling, slave trading, and multinationalism, and those in our nation’s highest office who have also practiced and benefited from these same illegal activities right up to the 21st century. . . . An intriguing view of some of the planet’s puppeteers.”

--Robert R. Hieronimus, Ph.D., author of *America’s Secret Destiny*

Secret Societies of America’s Elite exposes the dark and critical role secret societies play within the ruling families in America and their tremendous influence on American democracy, current events, and world history.

Secret societies have always been a major force in the history of Western civilization. The alliances formed in the Knights Templar, the Knights of Christ, and the Freemasons transcended patriotism and religious beliefs and had a powerful influence on the establishment of the United States of America. Masonic cells are credited with smuggling in the democratic ideals inspiring the American Revolution. Yet while these secret associations of merchants, smugglers, occultists, gamblers, spies, and slavers succeeded in freeing the United States from foreign domination, the dark side is that the elite used their connections to further their own wealth and power. These secret cells did not hesitate to sponsor the assassination of a president and even attempted to break up the union on several occasions when it was deemed expedient.

From the Sons of Liberty and the Essex Junto to the Ku Klux Klan, secret societies have played critical roles in building the fortunes of America’s most powerful families. Now Steven Sora reveals in alarming detail how these societies continue to wield power even today as organizations such as Yale’s Skull & Bones unite America’s modern ruling families as strongly as Masonic Lodges once connected the Astors, Livingstons, and Roosevelts. Their immense power and wealth allow this elite to control America to an even greater degree than the Templars once dominated Europe.

STEVEN SORA has been researching historical enigmas since 1982 and is the author of *The Lost Treasure of the Knights Templar*. He lives in Easton, Pennsylvania, and maintains a website at www.templarlegacy.com.

Users Review

From reader reviews:

Doris Stanford:

The ability that you get from *Secret Societies of America's Elite: From the Knights Templar to Skull and Bones* is a more deep you digging the information that hide within the words the more you get considering reading it. It does not mean that this book is hard to be aware of but *Secret Societies of America's Elite: From the Knights Templar to Skull and Bones* giving you buzz feeling of reading. The author conveys their point in a number of way that can be understood by anyone who read it because the author of this reserve is well-known enough.
