Editorial Review

Review

"Every investigator should own the Cadaver Dog Handbook... Rebmann, David, and Sorg do a wonderful job of providing a foundation for the understanding of scent evidence and are a welcome addition to the limited research in this field. Handlers and administrators, as well as researchers and legal experts, should review this text and determine its many applications for themselves." -FBI Law Enforcement Bulletin, November 2001 Promo Copy

Users Review

From reader reviews:

Lily Pawlak:

Now a day folks who Living in the era wherever everything reachable by interact with the internet and the resources inside can be true or not need people to be aware of each facts they get.
