Canine and Feline Endocrinology, 4e By Edward C. Feldman DVM DACVIM, Richard W. Nelson DVM, Claudia Reusch, J. Catharine Scott-Moncrieff

No other title offers such dedication to the depth, experience, and focus of endocrinology as **Canine and Feline Endocrinology, 4th Edition**. Comprehensive coverage includes virtually every common and uncommon condition in endocrinology, plus the most updated information on nutrition, geriatric care, pathophysiology, testing procedures, and cost-effective and expedient diagnostic protocols. With its logical, step-by-step guidance for decision making, diagnosis, and prescribing, you will be well-equipped to care for the wide spectrum of endocrine and metabolic disorders in dogs and cats.

- **Expert authorship**, including the addition of three world-renowned endocrinology experts ? Claudia Reusch, Catharine Scott-Moncrieff, and Ellen Behrend ? offers unparalleled guidance on the latest advances in the field.
- **Separation of cats and dogs** into separate chapters ensures information on each species is covered to its fullest.
- **Focus on diagnosis and treatment** with less discussion on anatomy and physiology allows the book to concentrate on practical, current information that today's clinician most use.
- **Thorough coverage of indications and interpretation of testing procedures** in endocrine diseases enables reliable and accurate diagnosis.
- **Detailed discussions of diagnostic strategies and treatment recommendations** provide practical, cost-effective, and expedient approaches while ensuring they represent standard of care backed by research and experience.
- **Algorithms on diagnostic and therapeutic approaches** provide a practical, logical resource for the busy practitioner needing quick access to information.
- **Logical, step-by-step guidelines** aid in accurate decision-making and diagnosis.
- **Comprehensive tables and boxes** summarize and clarify key information for quick reference.
- **In-depth discussions from experts in the field** include coverage of treatment, monitoring, and management of complications as well as clinical signs, differential diagnoses and diagnostic approaches
- **Extensive reference lists** provide readers with sources for additional

information on clinical investigative studies

- **Separate chapters devoted to each key topic** provide thorough, distinct coverage of all content areas.
- **NEW! Updated content** includes the latest information on: thyroid disease; current imaging studies; atypical Addison's disease; atypical Cushing's disease; idiopathic hypercalcemia in cats; insulin therapy in dogs and cats; diagnostics and treatments; and radiotherapy.
- **NEW! Integration of sound nutrition practices into the treatment** of endocrine disorders ensures that you have the knowledge you need to efficiently treat these disorders.
- **NEW! Expanded coverage** provides more information on geriatric dogs and cats and the latest findings regarding the treatment of diabetes (two factors which are often interrelated).
