Normative Ethics (Dimensions of Philosophy) By Shelly Kagan

Providing a thorough introduction to current philosophical views on morality, *Normative Ethics* examines an act's rightness or wrongness in light of such factors as consequences, harm, and consent. Shelly Kagan offers a division between moral factors and theoretical foundations that reflects the actual working practices of contemporary moral philosophers. The first half of the book presents a systematic survey of the basic normative factors, focusing on controversial questions concerning the precise content of each factor, its scope and significance, and its relationship to other factors. The second half of the book then examines the competing theories about the foundations of normative ethics, theories that attempt to explain why the basic normative factors have the moral significance that they do. Intended for upper-level or graduate students of philosophy, this book should also appeal to the general reader looking for a clearly written overview of the basic principles of moral philosophy.

Users Review

From reader reviews:

Lenore Ryan:

What do you about book? It is not important together with you? Or just adding material if you want something to explain what the ones you have problem? How about your free time? Or are you busy person? If you don't have spare time to try and do others business, it is make one feel bored faster. And you have spare time? What did you do? Every person has many questions above. The doctor has to answer that question since just their can do this. It said that about reserve. Book is familiar in each person. Yes, it is suitable. Because start from on guardería until university need this specific Normative Ethics (Dimensions of Philosophy) to read.

Agustin Byler:

A lot of people always spent their free time to vacation or even go to the outside with them family members or their friend. Are you aware? Many a lot of people spent these people free time just watching TV, or playing video games all day long. If you wish to try to find a new activity that's look different you can read any book. It is really fun for you. If you enjoy the book you read you can spent 24 hours a day to reading a e-book. The book Normative Ethics (Dimensions of Philosophy) it doesn't matter what good to read. There are a lot of people that recommended this book. These were enjoying reading this book. If you did not have enough space to deliver this book you can buy the actual e-book. You can m0ore very easily to read this book from your smart phone. The price is not to fund but this book possesses high quality.

Ruby Chartrand:

Your reading 6th sense will not betray you actually, why because this Normative Ethics (Dimensions of Philosophy) book written by well-known writer who really knows well how to make book that could be understand by anyone who have read the book. Written in good manner for you, dripping every ideas and publishing skill only for eliminate your hunger then you still question Normative Ethics (Dimensions of Philosophy) as good book not merely by the cover but also through the content. This is one reserve that can break don't ascertain book by its deal with, so do you still needing one more sixth sense to pick this!? Oh come on your reading sixth sense already told you so why you have to listening to one more sixth sense.

Cynthia Cisneros:

What is your hobby? Have you heard this question when you got students? We believe that that concern was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. So you know that little person including reading or as reading through become their hobby. You need to understand that reading is very important and also book as to be the matter. Book is important thing to provide you knowledge, except your own personal teacher or lecturer. You discover good news or update with regards to something by book. Amount types of books that can you choose to adopt be your object. One of them is niagra Normative Ethics (Dimensions of Philosophy).
