Editorial Review

Review

A very fine book on human nature, both what it is and what philosophers have thought about it--philosophers in an inclusive sense, from Plato and Aristotle to Mengzi and Xunzi, from Hume and Kant to Ibn al-Arabi to Marx and Rousseau and including many others. The writing is lively and accessible, the philosophy insightful, and the sense of human possibilities conveyed admirable. It will fit nicely into many different sorts of classes. --John Perry, Stanford University

I find this text very good and comprehensive for an introductory level course to introduce students to some major theories. The first two chapters are great for setting the stage for what philosophy is. --Patricia Murphy, Saint Joseph's University

About the Author

Joel J. Kupperman is Professor of Philosophy, University of Connecticut. Among his many publications are *Six Myths about the Good Life: Thinking about What Has Value*, *Classic Asian Philosophy: A Guide to the Essential Texts*, and *Human Nature: A Reader*.

Users Review

From reader reviews:

Steven Bourg:

Reading a publication tends to be new life style within this era globalization. With studying you can get a lot of information which will give you benefit in your life. Along with book everyone in this world can share their idea. Ebooks can also inspire a lot of people. A great deal of author can inspire all their reader with their story or maybe their experience. Not only the story that share in the ebooks. But also they write about the data about something that you need case in point. How to get the good score toefl, or how to teach children, there are many kinds of book that exist now. The authors in this world always try to improve their expertise in writing, they also doing some exploration before they write to their book. One of them is this Theories of Human Nature.

Kevin Applegate:

Playing with family in a very park, coming to see the ocean world or hanging out with good friends is thing that usually you may have done when you have spare time, and then why you don't try point that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on

roller coaster you have been ride on and with addition of information. Even you love Theories of Human Nature, it is possible to enjoy both. It is very good combination right, you still wish to miss it? What kind of hang type is it? Oh occur its mind hangout fellas. What? Still don't buy it, oh come on its identified as reading friends.

Daniel Bailey:

It is possible to spend your free time to see this book this reserve. This Theories of Human Nature is simple to bring you can read it in the area, in the beach, train as well as soon. If you did not have much space to bring the printed book, you can buy the particular e-book. It is make you much easier to read it. You can save typically the book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

Audra Yoder:

Some people said that they feel bored stiff when they reading a guide. They are directly felt the idea when they get a half elements of the book. You can choose the particular book Theories of Human Nature to make your personal reading is interesting. Your own personal skill of reading ability is developing when you such as reading. Try to choose basic book to make you enjoy to learn it and mingle the opinion about book and studying especially. It is to be very first opinion for you to like to start a book and learn it. Beside that the book Theories of Human Nature can to be your new friend when you're feel alone and confuse with the information must you're doing of the time.
