Handbook of Personality Development From Psychology Press

This handbook is the first volume to provide a comprehensive look at personality development. It features a state-of-the-art examination of the field, an area that is enjoying a resurgence in popularity. Five major types of advances, all of which are represented in this volume, are the result of the recent burst in research activity in this area: 1) new theoretical perspectives, 2) higher-quality empirical studies, 3) more sophisticated research designs and analyses, 4) attention to development across the lifespan, and 5) the growing prominence of interdisciplinary approaches to personality development.

The *Handbook of Personality Development* is comprehensive across the lifespan, in its range of personality constructs, and in its coverage of theoretical and methodological frameworks. It is the first volume to address the most important personality development theoretical frameworks in one location--the evolutionary, physiological, behavioral genetic, and socio-cultural perspectives. The book also reviews new statistical techniques that allow for the estimation of individual differences in stability and the analysis of change. The latter part of the book focuses on personality development over the lifespan, from infancy to older adulthood. The authors address personality variables such as emotion regulation, temperament, and self-concept across the lifespan. The book concludes with a compelling capstone chapter by Dan McAdams on how personality develops. The *Handbook of Personality Development* provides an historical account of, and summary of, the most significant and important findings in the area, along with suggestions for future research.

Intended for researchers and advanced students in personality, developmental, social, clinical, and educational psychology, as well as related fields such as family studies, sociology, education, nursing, behavioral genetics, neuropsychology, and psychophysiology, the handbook also serves as a valuable resource in advanced courses that address personality development.

Editorial Review

Review

"Written by developmental psychologists, this handbook provides a thorough overview of the state of the field of personality development....the book assumes a sophisticated understanding of personality theory. Highly recommended."

?CHOICE

"There is much to learn in paging through the 'Handbook,' and Mroczek and Little have provided an important service in bringing such a talented group of authors together."

?PsycCRITIQUES

"This handbook does a very fine job of conveying the current excitement and progress in the scientific study of personality development...The editors have done an excellent job of assembling some of the strongest and most articulate spokespersons for the major developments in the field today."

?Dan P. McAdams

From the capstone chapter of the Handbook of Personality Development

"There is rising interest in the topic, and ... there is no single volume that addresses it as fully."

?Robert R. McCrae, Ph.D.

National Institute on Aging

"I was particularly impressed by the breadth of coverage... "

?Eddie Harmon-Jones, Ph.D.

University of Wisconsin/Madison

Users Review

From reader reviews:

John Tibbs:

Do you have favorite book? For those who have, what is your favorite's book? E-book is very important thing for us to understand everything in the world. Each publication has different aim or goal; it means that e-book has different type. Some people truly feel enjoy to spend their time and energy to read a book. They are reading whatever they consider because their hobby will be reading a book. Think about the person who don't like studying a book? Sometime, person feel need book whenever they found difficult problem as well as exercise. Well, probably you will want this Handbook of Personality Development.

Lila Dixon:

What do you about book? It is not important along? Or just adding material when you want something to explain what your own problem? How about your extra time? Or are you busy man? If you don't have spare time to accomplish others business, it is make you feel bored faster. And you have extra time? What did you do? Everybody has many questions above. They need to answer that question because just their can do

which. It said that about e-book. Book is familiar on every person. Yes, it is right. Because start from on guardería until university need this particular Handbook of Personality Development to read.

Helen Williams:

Reading can called thoughts hangout, why? Because when you find yourself reading a book specially book entitled Handbook of Personality Development your mind will drift away trough every dimension, wandering in every single aspect that maybe unfamiliar for but surely will end up your mind friends. Imaging just about every word written in a e-book then become one application form conclusion and explanation that maybe you never get previous to. The Handbook of Personality Development giving you an additional experience more than blown away your thoughts but also giving you useful facts for your better life in this era. So now let us teach you the relaxing pattern is your body and mind will be pleased when you are finished reading through it, like winning an activity. Do you want to try this extraordinary spending spare time activity?

William Powers:

This Handbook of Personality Development is brand-new way for you who has curiosity to look for some information as it relief your hunger of knowledge. Getting deeper you in it getting knowledge more you know or you who still having little bit of digest in reading this Handbook of Personality Development can be the light food in your case because the information inside that book is easy to get simply by anyone. These books build itself in the form which can be reachable by anyone, that's why I mean in the e-book form. People who think that in guide form make them feel drowsy even dizzy this reserve is the answer. So there isn't any in reading a publication especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss the idea! Just read this e-book sort for your better life along with knowledge.
