Pharmacology: A Patient-Centered Nursing Process Approach, 8e (Kee, Pharmacology) By Joyce LeFever Kee MS RN, Evelyn R. Hayes PhD MPH FNP-BC, Linda E. McCuiston PhD RN ANP CNS

Prepare to administer drugs safely by mastering key pharmacology concepts and drug calculation skills! **Pharmacology: A Patient-Centered Nursing Process Approach, 8th Edition** covers nursing pharmacology within a real-world nursing context. Using a clear, streamlined approach, this text makes it easier to understand pharmacology with a detailed unit on dosage calculations, a nursing process framework for drug therapy, and summaries of prototype drugs. Written by nursing educators Joyce Kee, Evelyn Hayes, and Linda McCuiston, this edition includes a strong QSEN focus, enhanced coverage of prioritization, and more NCLEX® Examination–style questions on the subject of pharmacology.

- **NEW QSEN focus** emphasizes patient-centered care, safety, quality, and collaboration and teamwork.
- **NEW content** covers the most commonly used drugs, including updated *Prototype Drug Charts* and drug tables.
- **Enhanced coverage of prioritization** includes nursing interventions in the *Nursing Process* sections listed in order of priority.
- **Updated illustrations** include new drug labels in the *Drug Calculations* chapter.

Editorial Review

Review

"Addition of the right assessment, documentation, and evaluation and refusal, should enhance patient safety and reduce the numbers of patients harmed by their medications."

Nursing Standard, November 2011

Users Review

From reader reviews:

Thelma Price:

What do you regarding book? It is not important with you? Or just adding material when you need something to explain what the one you have problem? How about your free time? Or are you busy man? If you don't have spare time to try and do others business, it is give you a sense of feeling bored faster. And you have extra time? What did you do? All people has many questions above. The doctor has to answer that question since just their can do that will. It said that about guide. Book is familiar on every person. Yes, it is right. Because start from on jardín de infancia until university need this specific Pharmacology: A Patient-Centered Nursing Process Approach, 8e (Kee, Pharmacology) to read.

John Augustine:

Information is provisions for anyone to get better life, information presently can get by anyone with everywhere. The information can be a understanding or any news even a concern. What people must be consider while those information which is from the former life are challenging to be find than now could be taking seriously which one works to believe or which one typically the resource are convinced. If you get the unstable resource then you buy it as your main information you will have huge disadvantage for you. All of those possibilities will not happen in you if you take Pharmacology: A Patient-Centered Nursing Process Approach, 8e (Kee, Pharmacology) as your daily resource information.

Margaret Soto:

The book untitled Pharmacology: A Patient-Centered Nursing Process Approach, 8e (Kee, Pharmacology) is the reserve that recommended to you to read. You can see the quality of the publication content that will be shown to you actually. The language that article author use to explained their way of doing something is easily to understand. The article writer was did a lot of research when write the book, therefore the information that they share for you is absolutely accurate.
