Poisoning and Toxicology Handbook, Fourth Edition (Poisoning and Toxicology Handbook (Leiken & Paloucek's)) From CRC Press

A unique reference containing detailed reviews of more than 900 drugs and poisons, the *Poisoning and Toxicology Handbook, Fourth Edition* provides the latest information on medicinal, biological, herbal, and non-medicinal agents, and antidotes. Increasing its depth and scope with analyses of newer drugs, chemicals, and environmental toxins, including drugs that have been recently approved by the FDA, this book is a compendium of useful resources.

The present volume provides locations and phone numbers of poison control centers throughout the country, organizations offering information on toxicology, and teratology information services. It presents diagnostic testing and analytical procedures, evaluates the effectiveness of antidotes, and features an extensive symptoms listing. The section on special topics provides detailed treatment protocols, hospital preparedness guidelines, position statements, and practice guidelines focused on the treatment of toxicities. This fourth edition keeps you up to date in one of the most exciting and expanding fields in medical science.

Editorial Review

Review

This is a wonderful book! Clinical laboratorians will find it a valuable tool for the laboratory reference book shelf.

- Thomas P. Moyer, Department of Laboratory Medicine and Pathology, Mayo Clinic, Rochester, Minnesota, USA

...a good reference for the clinician, medical student, and general toxicologist. The wealth of information is, for example, ideal for preparing for an examination on the clinical aspects of toxicology.

- Matthew D. Reed, PhD, DABT

About the Author
