Editorial Review

Review

"Poetic, compelling, painfully beautiful writing contrasts with controversial subject matter to create a genuine work of modern art. If a young George Carlin, dealing with puberty and sexual frustration, set out to write a video-gamer's pornographic version of *Eat, Pray, Love*, he could have written a book much like Gannon Vries's *Yellow Fever*.... Controversial and unabashed about its subject matter, no reader will get through this book without feeling something... *Yellow Fever* is an undisputed must-read for those with the stomach for it."

- ForeWord Reviews

"Vries' debut novel depicts one man's quest for love and sex in Vancouver...Moniker, a divorced American male living in Canada, is obsessed with sleeping with as many women as possible...[I]t seems as if nothing can stop him--until a distinctly non-Asian intern at his workplace named Monika catches his eye. She's a single mother from Romania, hungry for advancement and critical of all things North American...A story of an unrepentant womanizer's journey, which may not be to all tastes."
