Geometry at Work (Mathematical Association of America Notes) From The Mathematical Association of America

Beginning with art and architecture and culminating with science and mathematics itself, this book discusses geometric ideas and their many applications throughout history. These range from ancient to modern, concrete to abstract, and familiar to cutting edge. Each chapter is written by a leading expert or pioneer in their own field, and the book should be a valuable resource for students and teachers of geometry alike.

Editor-Catherine A. Gorini

Gorini is among the faculty of Maharishi University of Management in Fairfield, Iowa, where she is professor of mathematics and chair of the Department of Mathematics. Her doctoral degree from the University of Virginia is in algebraic topology.

Users Review

From reader reviews:

Michael Gibson:

Do you have favorite book? If you have, what is your favorite's book? Reserve is very important thing for us to learn everything in the world. Each publication has different aim or perhaps goal; it means that guide has different type. Some people experience enjoy to spend their time for you to read a book. They are really reading whatever they get because their hobby is actually reading a book. What about the person who don't like studying a book? Sometime, man or woman feel need book once they found difficult problem or perhaps exercise. Well, probably you will want this Geometry at Work (Mathematical Association of America Notes).

Tyler Woodley:

As people who live in typically the modest era should be up-date about what going on or data even knowledge to make all of them keep up with the era which is always change and move ahead. Some of you maybe will update themselves by studying books. It is a good choice for yourself but the problems coming to an individual is you don't know which one you should start with. This Geometry at Work (Mathematical Association of America Notes) is our recommendation to cause you to keep up with the world. Why, because this book serves what you want and wish in this era.

Jerry Sonnier:

Playing with family in a park, coming to see the water world or hanging out with buddies is thing that usually you may have done when you have spare time, and then why you don't try point that really opposite from that. Just one activity that make you not experience tired but still relaxing, trilling like on roller coaster you have been ride on and with addition of information. Even you love Geometry at Work (Mathematical Association of America Notes), you can enjoy both. It is great combination right, you still want to miss it? What kind of hangout type is it? Oh seriously its mind hangout folks. What? Still don't buy it, oh come on its called reading friends.

Michelle Gilbert:

Do you like reading a reserve? Confuse to looking for your preferred book? Or your book had been rare? Why so many concern for the book? But any kind of people feel that they enjoy regarding reading. Some people likes studying, not only science book but in addition novel and Geometry at Work (Mathematical Association of America Notes) or maybe others sources were given expertise for you. After you know how the fantastic a book, you feel want to read more and more. Science publication was created for teacher or students especially. Those books are helping them to include their knowledge. In some other case, beside science book, any other book likes Geometry at Work (Mathematical Association of America Notes) to make your spare time a lot more colorful. Many types of book like this one.
