Magic Squares By Mark S. Farrar

This illustrated treatise on Magic Squares covers:

- the history of Magic Squares
- information about the general classes of Magic Squares
- various formulae for creating Magic Squares
- detailed analyses of 3 x 3, 4 x 4 and 5 x 5 Magic Squares
- variations on Magic Squares
- Magic Square routines, puzzles and presentations, including 'one novel contribution by the author which combines origami (the Crossed Box Pleat) with a Magic Square, The Origami Magic Square' (Eddie Dawes, M.I.M.C., in The Magic Circular)
- as well as references to approximately 40 other works on Magic Squares and mnemonics and over 40 pages of detailed Appendices.

Note that many of the magical routines are not explained, since the secrets are not mine to reveal, although the book does cross-reference all of the necessary sources.

Comments from reviews by other magicians and mathematicians include:

'... the definitive work on Magic Squares for years to come' (Joe Riding, M.I.M.C.)

'... a significant addition to the literature of magic squares' (Eddie Dawes, M.I.M.C., in The Magic Circular)

'... a splendid piece of work' (Alan Shaxon, M.I.M.C.)

'I wish a book like this would have been available to me a long time ago' (Jules Lenier)

'... an excellent reference book ...' (Michael Close in Magic)

'... I can honestly say that I have never seen such a thorough treatise on magic squares anywhere ...' (Andrew Jeffrey, Head of Maths, St Aubyns School, Rottingdean)

Users Review

From reader reviews:

Vicki Shah:

Have you spare time for a day? What do you do when you have a lot more or little spare time? That's why, you can choose the suitable activity to get spend your time. Any person spent their particular spare time to take a go walking, shopping, or went to often the Mall. How about open or maybe read a book eligible Magic Squares? Maybe it is to be best activity for you. You recognize beside you can spend your time with the favorite's book, you can more intelligent than before. Do you agree with it is opinion or you have other opinion?

Brett Munoz:

Nowadays reading books be than want or need but also turn into a life style. This reading addiction give you lot of advantages. The advantages you got of course the knowledge even the information inside the book which improve your knowledge and information. The information you get based on what kind of e-book you read, if you want send more knowledge just go with education and learning books but if you want really feel happy read one having theme for entertaining including comic or novel. Often the Magic Squares is kind of reserve which is giving the reader erratic experience.

Kelly Jackson:

Reading a book can be one of a lot of activity that everyone in the world really likes. Do you like reading book consequently. There are a lot of reasons why people enjoy it. First reading a e-book will give you a lot of new facts. When you read a publication you will get new information because book is one of various ways to share the information or even their idea. Second, reading a book will make you more imaginative. When you studying a book especially fictional works book the author will bring that you imagine the story how the people do it anything. Third, you could share your knowledge to other individuals. When you read this Magic Squares, you could tells your family, friends in addition to soon about yours e-book. Your knowledge can inspire different ones, make them reading a publication.

Jose Johnson:

The reason? Because this Magic Squares is an unordinary book that the inside of the publication waiting for you to snap this but latter it will shock you with the secret that inside. Reading this book adjacent to it was fantastic author who all write the book in such incredible way makes the content inside easier to understand, entertaining technique but still convey the meaning fully. So , it is good for you for not hesitating having this any more or you going to regret it. This book will give you a lot of gains than the other book have such as help improving your proficiency and your critical thinking method. So , still want to hold up having that book? If I have been you I will go to the publication store hurriedly.
