## **Editorial Review**

### Review

In association with Norman Shealy, M. D. (founder of the American Holistic Medical Association), Caroline Myss has developed a unique approach to the study of "energy anatomy" - the electromagnetic channels that connect mind and spirit; the "circuitry" which is crucial to the self-healing process. We do not heal because we use our illnesses (or "wounds") as a way of gaining intimacy and even personal power. This fascinating new look at the energetics of healing will teach the listener how to get out of the victim mentality that is the first obstacle to wellness. It also covers the fundamentals of human energy anatomy, the links between personal power and illness, toxic connections to the past and more. -- *Midwest Book Review*
