Also Known As By Robin Benway

Being a 16-year-old safecracker and active-duty daughter of international spies has its moments, good *and* bad. Pros: Seeing the world one crime-solving adventure at a time. Having parents with super cool jobs. Cons: Never staying in one place long enough to have friends or a boyfriend. But for Maggie Silver, the biggest perk of all has been avoiding high school and the accompanying cliques, bad lunches, and frustratingly simple locker combinations.

Then Maggie and her parents are sent to New York for her first solo assignment, and all of that changes. She'll need to attend a private school, avoid the temptation to hack the school's security system, and befriend one aggravatingly cute Jesse Oliver to gain the essential information she needs to crack the case . . . all while trying not to blow her cover.

Editorial Review

From School Library Journal

Gr 7 Up-Maggie is the new girl at a fancy New York City prep school, fresh off a safecracking gig in Iceland. Her current assignment is to infiltrate the family of a magazine publisher. There's romance, swanky settings, and a brassy sidekick named Roux. Especially for fans of Meg Cabot's "Airhead" series (Scholastic). Starred Review Maggie, 16, is the daughter of spies and a spy herself, and she is particularly genius at cracking safes. What she has never been is an average teenager. So when her assignment from the Collective—the first she is doing on her own—involves attending private school in Soho, she is all over it. Her job is to get friendly with rich boy Jesse Oliver, whose dad may publish findings that will blow the cover of the Collective and steal the dossier. She doesn't count on finding a crazy best friend, Roux, and developing feelings for Jesse, which makes milking him for information between kisses particularly icky. The connection between the revealing information and the Olivers is only a MacGuffin, but the mystery element does lead to an exciting, energetic, running-around-NYC ending. What's really great about this, though, are the voices. Maggie's smart and mostly sure first-person narrative is extended by the insights of bad, sad girl Roux and Maggie's elegant spy handler, the British forger Angelo. Even if you don't think you like spy stories, this one is fresh and fun. Grades 7-10. --Ilene Cooper

As a college student exactly feel bored to reading. If their teacher expected them to go to the library or even make summary for some e-book, they are complained. Just small students that has reading's spirit or real their interest. They just do what the trainer want, like asked to the library. They go to at this time there but nothing reading critically. Any students feel that reading through is not important, boring as well as can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Also Known As can make you really feel more interested to read.
