### **Editorial Review**

#### Review

'Making The Most Of WriteItNow 4' is a new book from Pinyon Publishing. Its aim is to help writers make effective, efficient use of WriteItNow 4. WriteItNow 4 includes extensive help which describes each of the program's functions. This book doesn't duplicate this information. Instead it provides practical tips and help from a writer's perspective which describe how to use the software when writing a book.

The book has 112 large pages, each clearly laid out with extensive diagrams...

The book is split into three main sections: "WriteItNow Essentials", "Create & Develop A Story" and "Exporting & Tips". New writers will find the first section particularly useful, especially the chapter describing essential tasks. Every writer knows that developing a story is hard and this is where the main part of the book concentrates. For example, Chapter 3 "Begin Your Story" has a very clear section helping writers get organized. The final section has tips, keyboard short-cuts and information on exporting.

Anyone who has bought WriteItNow 4 will find this book a great help. Newcomers will find it very instructive and even experienced users will still find plenty of interest. --Ravenshead Services, May 2010

#### From the Author

GARY LEE ENTSMINGER is a naturalist, computer programmer, and poet. He has written a novel, nine programming books, over 100 scientific/technical articles, and computer software that helps scientists understand patterns of biodiversity.

SUSAN ELIZABETH ELLIOTT is a writer, ecologist, and artist. She studied botany and French at Humboldt State University and has a Ph.D. in biology from Dartmouth College. This is her 3rd book.
